KNOW US BETTER

Raasta is more than a space, it is an iconic cult brand that has created a niche for itself for over ten years. Together, with their immense love for Rastafari culture, the two entrepreneurs have taken the brand a step forward by opening outlets in Calcutta and Pune this year.

JAH BLESS

Raasta brings alive the free spirit of the Rastafarian culture that has over one million dedicated followers across the globe. As the name suggests, Raasta encourages the tenets of simplicity, love, and freedom. The lounge pays tribute to the legendary talents of Bob Marley who made Rastafarian culture a part of the mainstream music scene and left an incredible impression. The brand has been a part of the ever-changing music and gig culture in the country and has set high standards since its inception in 2012.

GOOD VIBES
